TECHNICAL SKILLS

Languages

JavaScript, HTML5, CSS

Frontend Technologies

React

Backend Technologies

Express, Node.js

Tools & Platforms

Git, Heroku, Firebase, MongoDB

PROJECTS

Product Insight Application

React, Express, Node.js, Firebase

With a team, built a responsive web application that generates an adaptive survey, providing key production development insights for brands and discounts on products for consumers

Web-based Chat Application

React, Express, Node.js, MongoDB

With a team, built a chat application to store messages on a MongoDB database hosted on an Atlas Cluster. Built features to scroll through previous messages, text character validation, and show messages in real time

INTERESTS

Playback Theater, reading, hiking, traveling
